

Bharath MADHUSUDAN

CRO/Co-founder/co-CTO

As one of Securly's co-founders, Bharath wrote the first version of the company's core filtering engine and led the sales team that sold the first 200 accounts.

He wore many hats as the company grew, including Securly's first sales engineer, post-sales representative, demand generation marketer, and renewals manager, and built and scaled the company's support and marketing teams to their current levels.

Bharath has a Master's in Computer Science from Washington University at St Louis, and over a decade of enterprise security and engineering experience including an Architect level role at *Huawei-Symantec*. As Securly's Chief Revenue Officer he seeks to marry his engineering mindset with his operational experience in sales and marketing to help the company achieve the next level of scale.
